STUCK ON THE STOOKEY BILL

Horticultural Folks Are Busy.

Like the Senate Bill Well, but House Bill Better.

Varieties of Pears Were Discussed at the Meeting Yesterday Afternoon.

To secure the passage of the Stookey Mil with certain amendments, by the Legislature, is still the desire of the Salt Lake County Horticultural society. Failing this they would be satisfied with the puence of the Senate bill to regulate the perfectional industry in the State. But ther will concentrate their energies on

the House bill. The society received a report at its meeting yesterday from John P. Sorenen. County Inspector of Pests, on this natter. Mr. Sorensen reported for the committee that had been appointed to work with the Legislature for the passage of the bill. He stated that the compittee had appeared before the commit-te of the House and spoken for the bill, by that no definite action had yet been

The society wishes to have that bill arranded, if it is to pass, so that the Commissioners shall have the power to appoint the inspectors of pests and their deputies.

Choice of Pears.

There was a debate on what kinds of para were best to plant. Mr Sorensen showed that in considering this subject they must take into account the different hids of orchards. They must distinguish between commercial, peddlers' and family orchards. The first kind were for growing fruit on a large scale, to be shipped away by the carload. The second were to grow fruit to supply the peddlers and the immediate neighborhood. For commercial ise, the following kinds of pears were recommended to be planted. The Barliett, the Beurre d'Anjou and the Lawrence. For the home market and family consumption the following: Club Favorite, Sheldon, Howell, President Drouard, Worden Seckel Rossney, Flemtward, Worden Seckel Rossney, Flemtward, Worden Seckel Rossney, Flemtward. CHICAGO, Feb. 25.-Suicide in the balcony of a crowded theater was the method of death chosen by an unknown man about 22 years old, who shot and killed himself at the Chicago opera-house this afternoon during a vaudeville perform-The young man shot himself in the head. Death was instantaneous and the

head. Death was instantaneous and the body feil into the lap of a woman occupying an adjoining seat. She and several other women fainted.

When the sound of the shot was heard many women screamed and left their seats, but ushers soon quieted the excitement. No one was allowed to leave the balcony. The orchestra struck up a lively tune and alded in averting a panic. Nothing was found on the man's person to indicate his identity. The young man shot himself during the singing of a pathetic song pictured in a country farmhouse. He had listened attentively and had applauded. At the third encore he stood up, hesitated a moment, then quickly drawing a revolver shot himself dead.

SLAIN BY STRIKERS.

Prefect of Police and Leading Merchants of Batoum Assassinated.

CONSTANTINOPLE, Feb. 25 .- Advices from Batoum say the prefect of police and several leading merchants of that city have been assassinated and that numbers of Ottoman subjects have been murdered by Georgian strikers.

The Porte has drawn the attention of the Russian embassy to the situation and the latter has promised the necessary protection.

Revolutionary manifestations in fa-vor of a republic are being carried broadcast in Batoum. The movement broadcast in Batoum. The movement is not confined to the city workers, but has many adherents among the peas-ants and agricultural classes, who claim that the land owners are treat-

FAMOUS DR. BULL

Dr. John W. Bull, who discovered Dr. Bull's Cough Syrup fifty years ago, was the most successful doctor for all throat and lung diseases the world has ever known. No other doctor has ever been able to devise a better formula. There is no case of throat or lung trouble which Dr. Bull's Cough Syrup will not cure. It is to-day the only absolutely sure and safe cure for cough, cold, hoarseness, bronchitis, influenza croup, whooping cough, bleeding lungs or hemorrhages and consumption.

IT HAS CURED THOUSANDS.

"My little boy had a touch of bronchial semmonia and Dr. Bull's Cough Syrup saved im, after I had given him but a few sloses. My other boy and my husband had bad colds also, but thanks to the wonderful Dr. Bull's Saah Synp, they were cured too." Mrs. Annie Wiakle, 26 Diamond St., Brooklyn, N. Y.

"I have used Dr. Bull's Cough Syrup for my cold and obtained great relief. I have a cold tery winter and always take Dr. Bull's Cough Syrup, which helps me more than anything the and always cures me." Miss Barbara C. Williamson, Andover, Mass.

"There used Dr. Bull's Cough Syrup for years in my family and find it invaluable when any of my children are hourse or croupy." Mrs. C T. Wynkoon, 27th and East Glison Streets, Forland, Oregon.

"I have used Dr. Bull's Cough Syrup for the last seven years and have always derived great bases from 1t. I also recommended it to many of my friends and they are very well pleased with the result that followed its use." Andrew 25thg, 159 Hickory St., Buffalo, N. Y.

"My family has used Dr. Buil's Cough Syrup for the last twelve years successfully and would use no other." Kirk Feld, 511 D Street, S. E. Washington, D. C.

"I use none other but Dr. Rull's Cough Syrup, It has been used in our family for many years and I would not be without it in the house." Ernest E. Curry, N. J. State Hospital, Morris Plains, N. J.

"I used Dr. Bull's Cough Syrup with beneficial results. It worked like a charm and cured a cough in one night. It is the nicest and best cough syrup I ever used." William Campbell, Farnhurst P. O., Newcastle Co.,

"I want to tell you how delighted we all are with Dr. Buil's Cough Syrup. I am not saying too much when I say it is the very best cough syrup, not only for grown people but I never found anything to equal it for children. Dr. Buil's Cough Syrup deserves the entire credit for my children's good health. I recommend it to everybody "Geo. Gabriel, 1025 Second Ave., New York City.

AVOID SUBSTITUTES.

Do not accept some cheap imitation; it may contain harmful rugs. Neither take the poor substitute offered by the dealer; he is after large profit and you will endanger your health or that four family if you fool with a substitute. Insist on DR. 1348 COUGH SYRUP, it is the best; it is the one that will of you and no other remedy equals it. See that our Tradetests and \$1.00, at all druggists.

JUST BETWEEN THE SEASONS

Much to Offer Shoppers.

Collections Are Good and Wholesale Eusiness Booming.

Residence Property in Good Locations Is in Demand-Stocks and Bonds.

This is the time of year when depart nent store proprietors expect to enter tain large crowds of shoppers, especially when the weather is pleasant, but at the same time realizing that the buying season has not yet arrived. In other words, It is too late to offer winter goods, except at reduced prices, and too early for the regular spring shoppers to do their trading. However, the many things displayed by the Salt Lake merchants are proving a drawing card and the counters were fairly lined with prospective purchasers during the week.

Collections Are Good. Collections continue good, or at least wherever inquiries have been made the answer invariably given is that conditions

in general are satisfactory, and the outlook for a successful spring trade assured. With the wholesalers business is booming. Retailers who have not already done so are making purchases for the next three months' trade, and each day brings many orders from the large territory surrounding Salt Lake.

'We are not making as many deals as we would like to," said a member of a prominent real estate firm, "but we have so many inquiries and there are so many deals contemplated that we feel a successful year will result. Residence property, if in a good location, seems to be in demand, and we have buyers all the time who are looking for comfortable homes."

Architects Not Overworked.

Architects Not Overworked.

As a general thing, when business is good with the real estate man it is also good with the architect, and in this connection it may be added that at present the architects are not crowded with orders. Rough sketches are being made of prospective homes, and within a few weeks many plans will have been finished, but just now there are few jobs under way of any consequence.

With the exception of considerable buying by those interested in augar stocks, the market has been quiet all week. The latest quotations are as follows:

Mr. Jewett has already made a start by
asking the Attorney-General's office to
prepare the form for the bonds which
the refinery law authorizes to be issued
He will return to Topeka Monday to take
up the matter further with the State
Treasurer and Attorney-General.

"It will take some time to effect the preliminaries," said Mr. Jewett. "and I don't
know just how soon we will be ready to
commence the building nor how long it
will take. We have brick enough on hand
at present to put up the building by the
convicts, which will be the first step, in
case we find it will be cheaper to ship
our brick than to buy building material
there.

There is an abundance of stone around Peru, and we may find it cheaper to use that. Our first problem will be to invent some way to keep the prisoners while they are putting up their own building."

Bodies of the Dead How the Stomach and Kidneys Depend on the Inside Nerves

Every day medical science becomes more simple—and more certain. Simplicity and certainty go band in hand. For science has learned that while there are many discases, yet there are but few real causes of disease. That is, there are many names by which we know aches and pains and disorders. But most of these aliments spring from a common cause.

For instance, indigestion, sour stomach,

spring from a common cause.

For instance, indigestion, sour stomach, heartburn, dyspepsia and all stomach troubles—diabetes. Bright's disease and other kidney disorders—heart troubles, liver troubles, bowel troubles, nervousness, fretfulness, sleeplessness, irritability—all of these aliments are due to a single cause. Painful, disagreeable and dangerous though they be, they are not separate diseases—and they are not to be treated as such. They are merely outward signs of inward trouble—nerve trouble.

Inderstand first that we have two such

inward trouble—nerve trouble.

Understand first that we have two entirely separate nerve systems. When we walk or talk or act, we call into play a certain set of nerves—nerves which obey our mental commands. That is why the arm can be raised or the mouth opened, or the eye shut, at the slightest desire. That is why your fingers can delicately pick up a pin one moment, and hold a heavy hammer the next.

But these are not the nerves we are to consider here.

There is another set of nerves which

There is another set of nerves which manages and governs and actuates the heart and the stomach, the kidneys and the liver and all of the vital functions. You cannot control these nerves. By no supreme effort of mind can rou make your heart stop or start—nor can, you even make it vary by a single beat a minute. And so with the stomach and the liver and the kidneys and the bowels—they are automatie—they do their work at a certain set speed whether you are awake or asleep—whether you are awake or asleep—whether you are the interest of the insulation of the proper duties we are well and strong. When they fall, we know it by the inevitable symptoms—stomach, heart liver, kidney troubles. And these troubles have no other origin, ever, than in these same nerves. For the stomach, the heart the liver, the kidneys, have no power of their own, no self control. They owe their every impulse to the inside nerves are the masters. The organs their slaves.

These automatic nerves are sometimes. There is another set of nerves which organs their slaves.

organs their slaves.

These automatic nerves are sometimes called the "sympathetic" nerves. This name is given them because of the close bond of sympathy which exists between all branches. This explains why stomach trouble often develops into heart trouble-why indigestion brings on nervousness—why diseases become complicated. It explains, too, why ordinary medical treatments are wrong—why medicine so frequently falls.

For, despite the discoveries of science,

My Free Dollar Offer Any sick one who has not tried my remedy ... Dr. Shoop's Restorative -may have a Full Dollar's Worth Free. I ask no deposit, no reference, no security. There is nothing to pay either now or later. I will send you an order on your druggist which he will accept in full payment for a regular, standard size Dollar bottle. And he will send the bill to me. C. I. Shoop, M. D.

More than thirty years ago this thought came to me

'If life and health depend upon perfect heart action, upon proper stomach diges-tion, upon correct kidney filtering, why does not life itself depend upon these life-

the common remedies of the day are designed to treat the organ, not the nerve—the symptom instead of the cause.

Den't you, though you may not know medicine at all, see this is wrong? That it is mere patchwork? That while the suf-doctor the organ but to treat the one doctor the organ but to treat the one

governing power nerves—these inside nervea."

I realized too, that all ailments which result from one cause may, of course, be cured by one remedy. I resolved not to doctor the organs but to treat the one nerve system which operates them all. For those who treat only the symptoms need a different remedy for each. Such treatments are only palliality, the results do not last. A cure can never come in disease of the stomach, heart, liver or kidneys, until the inside nerve power is restored. When that is done, Nature removes the symptoms. There is no need of dectoring them.

My remedy—now known by Druggists everywhere, as Dr. Shoop's Restorative—is the result of a quarter century of endeavor along this very line. It does not dose the organ or deaden the pain—but it does go at once to the nerve—the inside nerve—the power nerve—and builds it up, and strengthens it and makes it well.

There is no mystery—no miracle. I can explain my treatment to you as easily as I can tell you why cold freezes water and why heat melts ice. Nor do I claim a discovery. For every detail of my treatment is based on truths so fundamental that none can deny them. And every ingredient of my medicine is as old as the hills it grows on. I simply applied the truths and combined the ingredients into a remedy is now known, and rolled upon. Yet

edy that is practically certain.

In more than a million homes my remedy is now known, and rolled upon. Yet you may not have heard of it. So I make this offer to you, a stranger, that every possible excuse for doubt may be removed. Send no money—make no promise—take no risk Simply write and ask. If you, have never tried my remedy. I will send you an order on your druggist for a full dollar bottle—not a sample, but the regular standard bottle he keeps constantly on his shelves. The druggist will require no conditions. He will accept my order as cheerfully as though your dollar lay before him. He will send the bill to me.

Will you accept this opportunity to learn at my expense absolutely how to be rid forever of all forms of nervousness—to be rid not only of the trouble, but of the very cause which produced it? Write to-day.

Dies Before the Wickiaup of Her Successful Rival.

RENO, Nev., Feb. 5.—Hattle Jones, an Indian, driven insane because of the fact that her husband deserted her for another woman, committed suicide before the wicklaup of her successful rival, east of town, this morning. She ate wild parsnips to carry out the deed. The family trouble began a few days ago when the woman discovered that her husband was associating with another woman. A fight ensued, in which Hattle was stabbed slightly. A separation followed and the suicide today is the result. The dead woman leaves a two-weeks-old baby.
